

Dining

Quickly find and book the perfect restaurant while saving up to 10%.

While companies have gained increased control over travel expenses in recent years, most struggle to manage dining expenses. At the same time, productivity takes a hit when employees waste time searching for the right restaurant using multiple tools and directories.

With the Rearden Personal Assistant, business managers can define dining policies and effectively communicate them to employees. And through an exclusive partnership with Rewards Network, the leading provider of dining rebate programs, companies earn up to 10% when employees dine in one of the 9,000 plus participating restaurants, paying with their corporate card.

Employees can select from more than 48,000 restaurants in the U.S., U.K., and Canada. They can search by restaurant name, cuisine, or address and compare by location, cost, availability, and Zagat or Gayot ratings. Plus they can save their favorite dining preferences and restaurants. When making an online reservation, the details are automatically added to their calendars. And they can easily invite guests and manage RSVPs.

Savings for Companies:

- Earn up to 10% rebate at thousands of Rewards Network restaurants
- Easily communicate dining policies and guide employees to preferred restaurants
- Increase visibility and actively manage dining spend

Convenience for Employees:

- Select from more than 48,000 restaurants – view availability and place reservations online with thousands of restaurants via OpenTable, plus earn dining rewards
- Receive restaurant suggestions based on personal dining preferences
- Save your favorite restaurants to quickly find and make reservations
- View restaurants by location and distance
- Search for restaurants by name, cuisine, address, and saved location
- Invite guests and manage RSVP's online
